Subject: PSC Website Comments:

Duke Rate Increase of 12.5%.

I DO NOT think Duke Power should be granted a rate increase at this time. As a former employee, I know the waste that goes on in the company and as all other companies are doing in this economy they need to tighten their belts and find ways to cut cost and not stick it to their customers.

I am not getting a raise this year from my company, do should do the same to their employees and this would be a great savings and would result in No Increase need in rates.

Thanks you for the opportunity to express my views on the rate increase, Duke will request next week.

Regards
